

Our Family's Experience

By Cameron W.

"There truly are not enough words to express my gratitude for Dharma, Connie, and their incredible team at **Jerry's Place**. My 73-year-old mother was battling stage 4 lung cancer, and during her final days, they cared for her and for us with extraordinary compassion and dignity.

We were first introduced to Connie and **Jerry's Place** through Dharma, a pharmacist at CHOMP, and that introduction was truly a blessing. From the very beginning, we felt surrounded by a team that was deeply committed to supporting both my mother and our family, even beyond regular expectations.

The entire team was kind, attentive, and whenever the need arose, they were there without hesitation. No matter the time or circumstance, they responded with compassion and urgency. During one of the most painful times in our lives, they brought comfort, calm, and reassurance.

This hospice center was like no other I have ever experienced. The environment was calm and welcoming. My mother's room was always clean, thoughtfully maintained, and comforting, and it truly felt like a place of dignity and care.

I also want to extend a heartfelt thank you to the volunteers who spent hours with my mother when I was unable to be there. Knowing she was not alone and that someone was holding her hand or simply keeping her company brought me more comfort than I can express.

Even after my mother's passing, the team has continued to check in on our family to see how we are doing, something that feels truly unimaginable and speaks volumes about their compassion and character.

Most importantly, they treated my mother as more than a patient. They treated her as a person, with gentleness, patience, and genuine care. They supported our family emotionally as well, which we will never forget.

We are forever grateful to Dharma, Connie, the volunteers, and the entire team for walking with us through such a difficult time. I wholeheartedly recommend Jerry's Place to any family facing the difficult reality of a loved one's final days and wanting them to be cared for with compassion, respect, and heart."
